Coronavirus Disease 2019 (COVID-19)

The Cal OES State Operations Center (SOC) activated 03/02/20 at 0700 hours in support of the California Department of Public Health (CDPH) Medical Health Coordination Center's (MHCC) statewide response to COVID-19. Cal OES will continue to provide resource coordination for the COVID-19 event, as well as situation status reporting and advance planning across multiple areas.

Situation Overview

- **California State of Emergency Proclamation**

On 03/04/20, Governor Gavin Newsom declared a State of Emergency for California, as a result of the global COVID-19 outbreak that began in December 2019, to make additional resources available, formalize emergency actions already underway across multiple state agencies and departments, and help the state prepare for broader spread of COVID-19.

- **Global Health Advisory**

On 08/06/20, in close coordination with the U.S. Centers for Disease Control and Prevention (CDC), the Department of State lifted the Global Level 4 Health Advisory. The Global Advisory, initially put in place on 03/19/20, advised U.S. citizens to avoid all international travel due to the global impact of COVID-19. For more information visit: <https://www.state.gov/>.

- **State Executive Order N-33-20**

On 08/28/20, California introduced a blueprint for reducing COVID-19 in the state with revised criteria for loosening and tightening restrictions on activities by counties. Visit [Blueprint for a Safer Economy](#) for more information and to check the status of a county. This blueprint included a health equity metric to be used along with other metrics to determine a county's tier. The purpose of [Equity Metric](#) is to ensure California reopens its economy safely by reducing disease transmission in all communities.

- **CDPH Statewide Travel Advisory**

The California Department of Public Health (CDPH) has issued a new Travel Advisory superseding the 11/13/20 guidance. Californians should avoid non-essential travel to any part of California more than 120 miles from one's place of residence, or to other states or countries. Non-essential travelers from other states or countries are strongly discouraged from entering California, and if they do, should adhere to quarantine procedures. All persons arriving in or returning to California from other states or countries should self-quarantine for 10 days after arrival, except as necessary to meet urgent critical healthcare staffing needs or engage in emergency response.

WEATHER OF CONCERN

NORTHERN CALIFORNIA

- A warm moist airmass will spread across northwest California Saturday night through Monday night. A long duration of heavy rain will be possible as a result.
 - 3 to 5 inches of rain is expected across most coastal and valley locations, with higher amounts from 6 to 9 inches possible across southwest facing mountains and ridges.
 - Heavy rain combined with saturated soil and melting snow across the mountains will contribute toward possible flooding.

SOUTHERN CALIFORNIA

- Nothing significant to report.

Saturday-Wednesday

- A series of storms will move across northern California Saturday night through early next week
 - Strong winds are likely across far northern California Saturday afternoon through Monday afternoon, and over the Sierras for Monday and Tuesday.
 - While precipitation amounts look lighter than the storm that just occurred, periods of moderate to locally heavy precipitation are expected across northern California
 - Flooding is possible across far northern California due to heavy rainfall, especially in low lying areas, creeks, streams, culverts, and urban areas
 - No recent burn scars are expected to receive any notable debris flow concerns at this time
 - Travel impacts are expected in the mountains of northern California due to heavy accumulating snowfall Sunday through Wednesday, with the heaviest snowfall over the Sierras late Monday and Tuesday

Thursday-Friday

- No significant weather impacts are expected
